## New Listings

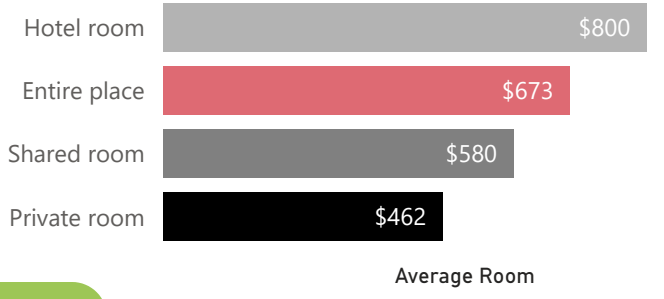

**Airbnb's new listings peaked in 2015, then declined as regulations tightened. A mild recovery followed in 2018-19, but COVID-19 pushed new listings close to zero. Entire Place listings dominate throughout, followed by Private Rooms.**

# Global Airbnb Performance Dashboard

## Market Share by City

**Paris alone holds 23.1%** of all listings, about **9x more than Hong Kong (2.5%)**.
The market is **not highly concentrated**: it takes **7 of 10 cities** to cross the 80% mark (83.7% at Mexico City), so growth is spread out and not dependent on one city.

## Ratings

**Select the Detail Level**

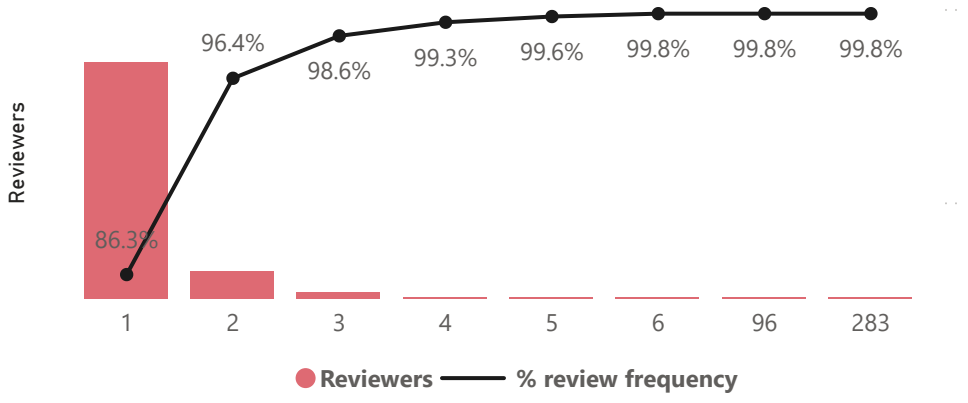

Overall Rating

Detailed Rating

| city | Location | Accuracy | Cleanliness | Value | Communication |
|---|---|---|---|---|---|
| Hong Kong | 9.6 | 9.2 | 9.0 | 9.0 | 9.4 |
| Istanbul | 9.4 | 9.3 | 9.1 | 9.2 | 9.5 |
| Bangkok | 9.2 | 9.5 | 9.4 | 9.3 | 9.6 |
| Sydney | 9.7 | 9.5 | 9.2 | 9.3 | 9.7 |
| New York | 9.6 | 9.6 | 9.3 | 9.4 | 9.7 |
| Paris | 9.7 | 9.6 | 9.2 | 9.3 | 9.7 |
| Cape Town | 9.7 | 9.6 | 9.5 | 9.5 | 9.7 |
| Rome | 9.6 | 9.6 | 9.5 | 9.4 | 9.7 |
| Rio de Janeiro | 9.8 | 9.6 | 9.4 | 9.3 | 9.8 |
| Mexico City | 9.8 | 9.7 | 9.6 | 9.6 | 9.8 |

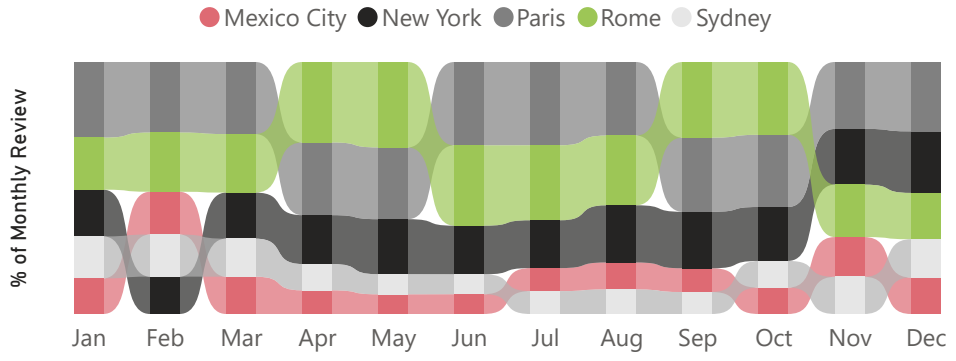

# Global Airbnb Performance Dashboard

## Review Frequency

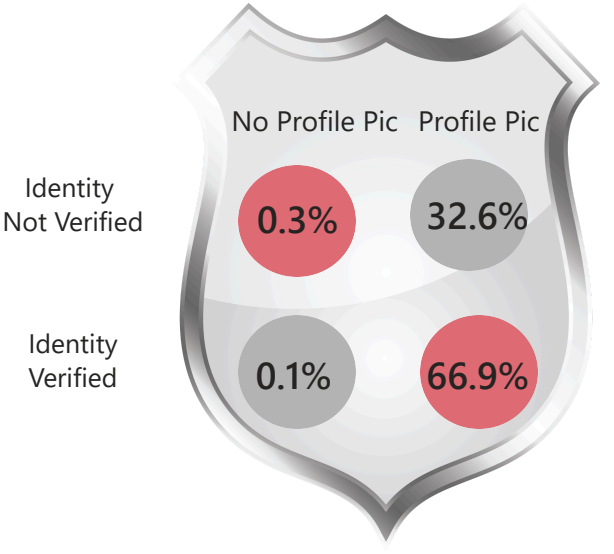

**86% of reviewers** have written just **one review**. By 3 reviews, we've already covered **98.6%** of all reviewers, so reviews are **not driven by loyal repeat guests**, they come from **one-time stays**. Only **0.24%** have written more than 6, and a few extreme outliers **(96 and 283 reviews)** barely move the overall picture.

## Seasonality

**Rome** and **Paris** hold the biggest review share from **April to August**, reflecting peak summer travel.
**New York** and **Mexico City** gain share in **October to December**, during the holiday season

## Trust

**66.9% of hosts** are identity verified and have a profile pic, and **99.5%** have a profile pic overall. However, nearly **33% of hosts** (32.6% + 0.3%) are still not identity verified, so verification is the real trust gap.
